

## Scientific speeches, lectures and seminars

### **Zielgruppe:**

Promovierte Wissenschaftler/innen aller Fachrichtungen

### **Lernziel:**

University teaching is more and more frequented by international students and scientific research is to be presented at international conferences. It is expected that talks and lectures have to be delivered in English in front of an international audience.

This module focuses on intercultural skills and techniques for planning lectures and presentations in English so that the contents can be delivered in an attractive stylistical and visual manner.

Some of the questions the seminar intends to answer are: What cultural influences and differences effect teaching and learning processes? Which guiding principles for presentations are appropriate for an international audience? What are suitable teaching and learning methods for lectures in English?

### **Topics:**

- Common pitfalls and how to avoid them
- Considering cultural differences
- Lectures, speeches, presentations
- How to motivate discussions with students during lectures
- Power Point and Flipchart - using media effectively
- Techniques to avoid getting stuck when speaking in English
- Lecture design in the Anglo-Sachsen style

### **Termin/e und Uhrzeiten:**

Seminar: Mo, 05.05.2014, 10.00 bis 18.00 Uhr  
Coaching: Di, 06.05.2014 (Uhrzeit nach Vereinbarung)

### **Anmeldeschluss:**

14.04.2014

### **Gruppengröße: 6**

### **Trainer/innen/Coaches:**

Dr. Alexander von Reumont
