A strong network

RAR combines and bundles the expertise of RUB Research School, Graduate Center TUDo, and Graduate Center Plus of the UDE. All activities offered under the umbrella of RAR are based on a close cooperation and regular exchange of experience.

This becomes particularly evident in the workshop program for postdocs and junior faculty members, which is jointly designed and planned by the three institutions. In these career phases, the researchers benefit increasingly from the opportunity to network across the universities, providing valuable contacts and opportunities for new research projects in the UA Ruhr.

RAR also promotes the visibility of UA Ruhr’s excellent research conditions on an international level by hosting international postdocs as well as offering consultation sessions and workshops at career fairs all around the world.

Research Academy Ruhr

The cross-university platform for early career researchers within the University Alliance Ruhr

Funded by
Informing, qualifying, and promoting together

Research Academy Ruhr (RAR) is the cross-university platform for promoting early career researchers within the University Alliance Ruhr (UA Ruhr).

Under RAR’s umbrella, Ruhr-Universität Bochum (RUB), TU Dortmund University (TUDo), and the University of Duisburg-Essen (UDE) jointly offer a diverse interdisciplinary qualification and networking program.

Workshops, hands-on career and networking events as well as a mentoring program strengthen the development of personal and academic skills and prepare for a career in research, business, and society.

The offers address the approximately 10,000 early career researchers in the UA Ruhr and promote the mutual exchange of ideas, both within specific research fields and across individual disciplines.

Our program: workshops, mentoring, career and networking events

All of RAR’s offers are tailored to the different phases of an academic career and are designed to address:

- Doctoral researchers and those interested in a doctorate
- Postdoctoral researchers
- Junior Faculty (habilitation candidates, research group leaders, junior professors)
- International early career researchers

UA Ruhr’s early career researchers also find a wide range of local offers of interdisciplinary workshops and events, advice, and support at their respective universities.
